Red Union Has Vital Contract

To the Editor:

Let us, as the citizens of our great republic, cheer, nay, praise the efforts of Rep. Rhodes of Arizona that led him to the rather distasteful fact that the American Communications Association, the labor organization that was thrown out of the AFL-CIO for being controlled by Communists, is servicing the communication lines to the Pentagon.

He was, however, unable to determine whether they had a contract to service the communication lines of the SAC.

It is also very disturbing to learn that Rhodes also found that the Defense Department, the CIA, the National Labor Relations Board, the Subversive Activities Control Board, and even the President's brother, Bobby Kennedy, either said that the problem wasn't theirs or that their hands were tied in the matter.

It is very good to see that some of our representatives are concerning themselves with the real enemy of our country, the Communists, and not the right wingers, whom some of the high welfare-state advocates would have us believe are the enemy.
